POOLS SUPERVISION, SWIM TEST AND WRISTBANDS

Aquatic safety is a partnership between great parental supervision and preventative lifeguarding. Countryside YMCA uses a swim test and wristband system to identify the swimming ability and adult supervision requirements for children ages 0-12 years of age.

- Have an adult 18 years old or older in the water within arm's reach and actively involved in the supervision of the child at all times.
- Children found in the water without adult supervision within arm's reach will be reunited with their responsible adult one time per day. If a child is reunited for a second time in the same day, the family will be asked to leave the pool.
- Adults with multiple children 5 years old and younger, must stay together in the shallow water within arm's reach of the children.
- Aquatic Staff will perform periodic "Family Checks" to verify in-water adult supervision.
- Swimmers with a red wristband may enter deep water if accompanied by an adult 18 years old or older in the water within arm's reach.
